

Light is vision.

## OEM Components for Industrial Endoscopy

With our team of well attuned specialists you will obtain complete realization of your product design from one single source. We possess the essential process efficiency to guide your OEM product from pre-study to series manufacturing and after sales service.

### R&D Competence

- System Engineering
- Optical Engineering
- Mechanical Engineering
- Elektronik Engineering
- Software Engineering
- Thermal Management

### Manufacturing Competence

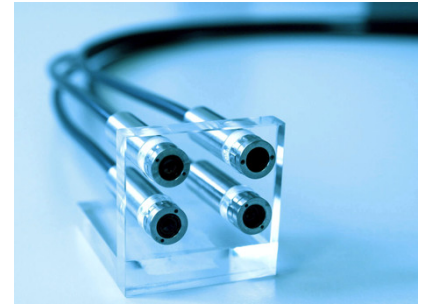

- Ressources and Production Planning
- Automated or manual production (depending on requirements)

### Service Competence

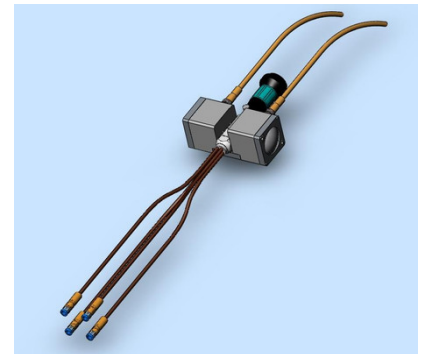

- Project Management
- Product Lifecycle
- Customer Service

### Additional Information
